

GW-SMA-310 Light Source Specification Sheet

Overview

Spectral curve

Product parameters

ITEM	Parameters
Output optical power of the light source	>30uw
Peak wavelength of the light source	310nm±10nm
Light source divergence Angle	±20°
Working voltage of the light source	3V
Working current of the light source	0.7A
Electric power of the light source	3W
Light source interface	SMA
